Having the Distinction of Winning 3 Prizes on 1 Basket

Yes, it is true that PEARL HARBOR has the distinction of winning three Championship Prizes in three different Classes on the same basket. Three more prizes added to the very long string of honors won in the past few years. It goes to show that this flower is different for make up artistic work.

You are not buying something old when you buy bulbs of Pearl Harbor, as this is only the second season we have ever offered stock for sale — the past few years only cut flowers were offered to the buying public at fancy prices.

This past season Pearl Harbor was the outstanding white cut flower on the Chicago Flower Market, bringing highest prices over any other white variety sold.

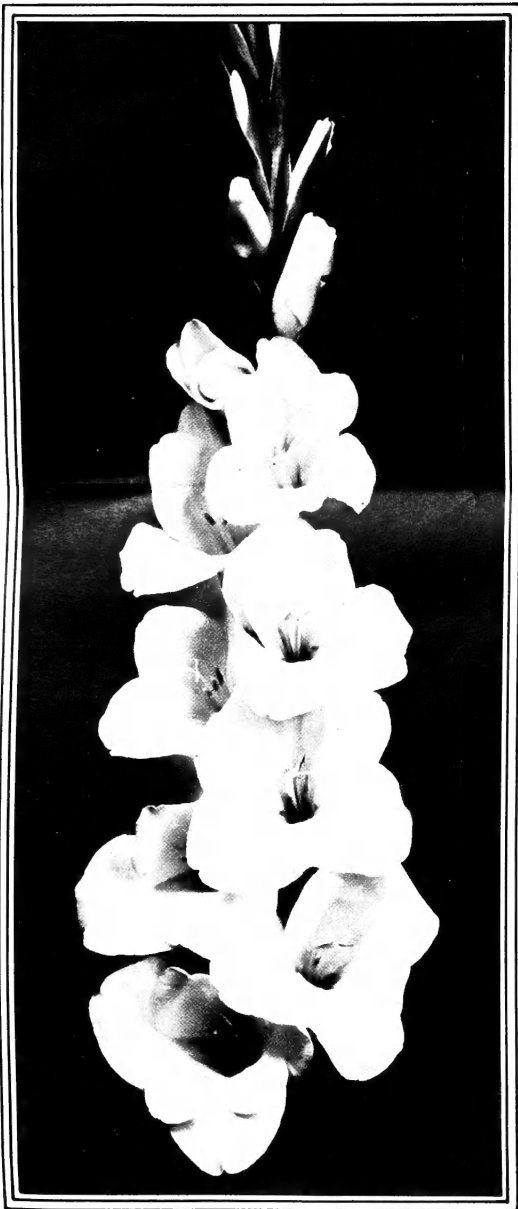

You, too, can increase your sale of cut flowers if you get started now in growing this wonderful variety.

Many fine letters were received the past years expressing the many fine merits of this variety as a cut flower. This leads us to believe that Pearl Harbor Gladiolus will surpass any other white in existence today and for many years to come.

DESCRIPTION — Purest white without markings, which make this variety very valuable as a commercial flower. It has proven itself to have lasting qualities without any sign of wilt for over 50 hours on the exhibition table. Straight upright stalks, with good heavy foliage. Very vigorous and multiplies from bulb and bulblet. Flower head carrying 20 to 22 buds, and opening a glorious array of 10 to 12 florets at a time. Color showing on balance of spike.

Be the first to grow Pearl Harbor in your locality. You, too, will boost your sales and also, you will be growing just the white variety of Gladiolus that you have always wanted.

**STOCK NOW READY FOR THE
COMMERCIAL GROWER**

Golden Gate

Introduced to the flower world in 1940 as a new clear-toned yellow with no markings. We now have sufficient stock to offer Commercial Growers for the first time this year. We can highly recommend this variety as one that will stand under all weather conditions. Has a very tall plant with clear green foliage, 18 to 20 buds on stalk, with 6 to 8 fine large florets open at one time. Good substance, richest golden color and we feel that this variety is the largest of its type. Plain petaled and introduced at \$5.00 per bulb. Many growers who have seen this variety have praised it highly. Prices in general listing.
